

Muhammad Yahiya Asif

MERN STACK DEVELOPER

About Me

I have 4 years of industry experience specializing in modern web development. My expertise includes React.js and Next.js, where I work with core concepts such as caching, routing, and API handling with validation. I also have experience with Express.js for building modular REST APIs and file handling, along with basic knowledge of AWS services including EC2, Lambda, ECS, ECR, and IAM.

Education Background

- **BSCS**
Virtual University for BSCS
2022 - present
Bachelor of Science in Computer Science
- **DIPLOMA**
Saifee Ehdia Zahabi Institute Of Technology
2019 - 2022
DAE in Telecommunication & Electronics
- **MATRICULATION**
Nasra Secondary School
2018 - 2019
Matriculation in Computer Science.

Professional Experience

Symits

September 2023 - Present

Key responsibilities:

- Developed and maintained web applications using React.js and Next.js, focusing on performance optimization and scalability.
- Worked on Next.js core concepts including caching strategies, routing mechanisms, API handling, and validation to ensure smooth application flow.
- Designed and implemented REST APIs using Express.js, with a modular approach for better maintainability and file handling.
- Collaborated on integrating applications with AWS services such as EC2, Lambda, ECS, ECR, and IAM for deployment and cloud infrastructure management.

Code Tech Soft

June 2022 - August 2023

Key responsibilities:

- Front end Development
- Back end Development
- User interfaces Development for Websites and Applications
- Mern Stack Development
- Mostly Work on React

Interactive Media | Intern

February 2021 - June 2022

Key responsibilities:

Develop User interface for Website and Applications

Achievements

2013 - 2015 Certification
